

# CANCER PREVENTION STUDY-3

Research today for a cancer-free tomorrow.

*"I have lost several people close to me to cancer, and I'd like to do something to fight this disease."*

## Who is YOUR reason to Relay?

What if you could honor them by participating in research that could make it so that just one family never had to hear the words "you have cancer?"

What if you could help create a world with more birthdays and less cancer?

This year, YOU have the opportunity to join the movement for more birthdays and less cancer. Enroll in the American Cancer Society's Cancer Prevention Study-3 (CPS-3) at your Relay For Life, and encourage everyone you know to enroll.

## Who can join the study?

The study is open to anyone who is willing to commit to the study long-term, is between the ages of 30 and 65, and has never been diagnosed with cancer.

## How can you participate?

**Enrollment will take place at Relay For Life of Linn County, Kirkwood Community College, June 4, 2010 6:30pm-10:30pm in the main tent!**

The enrollment process involves two steps. The first step takes place at a local enrollment event, where you will be asked to read and sign an informed consent form, complete a brief written survey, provide a waist measurement and give a small blood sample (similar to a doctor's visit – 7 teaspoons total). The blood sample will be drawn by a trained, certified phlebotomist.

The second step takes place at home, where you will complete a more detailed survey. This survey will ask for information on lifestyle, behavioral, and other factors related to your health. Periodically, you will receive a survey at home to update that information.

## What else can you do?

Tell everyone you know about this one-time, historic opportunity to save lives and fight for every birthday threatened by every cancer in every community.

*Join the movement for more birthdays and less cancer. Participate in CPS-3.*
